

### **Environmental Policy Skyline Tours**

Skyline Tours, a company dedicated to tourist and corporate transport, recognizes the impact that its operation causes on nature, the health of the human being and the impact it would have in the future.

Therefore, we assume responsibility by protecting natural resources and the right of future generations to have a healthy and ecologically balanced environment.

In Skyline Tours we commit to:

- Comply with national legislation and the requirements requested by the different certification processes in which the company is registered.
- Maintain the units in excellent mechanical conditions to minimize the environmental impact they may cause.
- Establish procedures for continuous improvement of our environmental aspects
- Properly dispose of waste generated in the company
- Make sustainable purchases in accordance with the country's provisions
- Create a culture of environmental awareness with all employees.
- Compensate the carbon footprint of our activities

Skyline will communicate this policy to all its collaborators, service providers, as well as to external users and provide the necessary resources to comply with it.
